Golf Course Manager Allen gave an update of the progress of the Golf Course Improvement Project :

1. Bridge structures have been replaced.
2. Parking Lot Improvements are complete.
3. Main line drainage on the front nine has been installed – back nine drainage has been scheduled for later this month.
4. Driving Range construction was slowed by the conditions of the site, but is moving along rapidly now with the drier weather. Seeding will be done within the next thirty days. The driving range will be ready for next spring.
5. No. 2 is seeded and growing in.
6. A pump station is being installed by WPCCC personnel.
7. Lateral drainage is being tied into the main line drains to drain the low areas.

Council President Ranally asked about the status of the budget for the golf course improvements. Mr. Allen said they are close to the amount that was set.

League play and other rounds played at the golf course were discussed. Mr. Allen said that the biggest loss of play has been on the weekends. He feels the improvements are going to help in the long term. Mayor Anderson said that he recently drove around the golf course with Mr. Allen and is confident that we are on the right track with the improvements.

Councilman Woodin asked about the No. 10 drainage which runs along North Bay. Mr. Allen said that the area between No. 10 and 11 stays relatively wet. When the main lines go in they will extend the 4" tile to that area.
