Dumping of Permitted Fill Material

This is to certify that _____
Name of contractor, hauler or person responsible for dumping

DBA _____ Address _____ Phone _____

has requested and is hereby granted permission to allow the dumping of permitted fill material at:

Address of property receiving fill material

Owner Name _____ Address _____ Phone _____

Vehicle(s) that will be dumping fill material:

Vehicle Type _____ Color _____ License Plate No. _____

Vehicle Type _____ Color _____ License Plate No. _____

Vehicle Type _____ Color _____ License Plate No. _____

Fill material will only be permitted in accordance with Building & Zoning Ordinances 1323.07 and 1323.08 of the City of Willoughby. No person shall cause any filling or bank restoration to be conducted within the City unless the material being used therefor is fill consisting of natural earthen products such as slag, sand stone, gravel or crushed concrete, free of contaminating material or hazardous objects. No fill shall consist of or contain any cinders, ashes, fly ash, tree stumps, asphalt/blacktop, organic matter or any other material or substance prohibited by any of the provisions of these Codified Ordinances or of State or Federal statutes.

Contractor/hauler and property owner are jointly responsible for grading of fill and shall keep streets/right-of ways clean and free of mud or debris.

Express written consent is required from adjacent property owner(s) if access through or over adjacent land is necessary to dump fill material.
